

KUMAR AUDIOS[®]

AUDIO POWER AMPLIFIER MODULE

KA 2611 MONO MODULE

FEATURES:

- *High-End Audio Power Amplifier Module.
- *User Friendly Compact Design fits with all types of Amplifier Cabinets.
- *Heavy Heat sink to dissipate Heat Properly.
- *Connectors for (Input, Output and Supply) easy to use.
- *Used our innovative technology "KA Audio Pre section" make you to Experience High-end Audio Quality.
- *Class AB Classification.
- *Six Output Power Transistor drivers (Complimentary Pairs).
- *Used High Quality Genuine Components for best performance.
- *Passed Three stages of Quality control test.

SPECIFICATIONS:

S.NO	PARAMETER	RATINGS
1	Operating Voltage range DC	$\pm 45\text{V DC}$ to $\pm 60\text{V DC}$
2	Recommended Operating Voltage DC	$\pm 55\text{V DC}$
3	Input Impedance	47K Ohms
4	Output Power RMS ($R_L=4$ Ohms)	345 W
5	Maximum Temperature Withstand	125°C
6	Total Harmonic Distortion (THD) at 10W	0.009% ($f=1\text{KHz}, R_L=4$ Ohms)
7	Recommended Output Load	$R_L \geq 4$ Ohms $R_L < 4$ Ohms is NA
8	Frequency Response	15Hz to 30KHz
9	Classification	Class AB

Note: This product is only for Professional technicians and it is a non-serviceable product.
