

**KUMAR AUDIOS<sup>®</sup>****AUDIO POWER AMPLIFIER MODULE****KA 2631 THREE CHANNEL MODULE****FEATURES:**

- \*Three channel High Power Audio Amplifier Module.
- \*User Friendly Compact Design fits with all types of Amplifier Cabinets.
- \*Heavy Heat sink to dissipate Heat Properly.
- \*Connectors for (Input, Output and Supply) easy to use.
- \*Used our innovative technology "KA Audio Pre section" make you to Experience High-end Audio Quality..
- \*Class AB Classification.
- \*Two Output Power Transistor drivers (Complimentary Pairs) per channel.
- \*Used High Quality Genuine Components for best performance.
- \*Passed Three stages of Quality control test.

**SPECIFICATIONS:**

S.NO	PARAMETER	RATINGS
1	Operating Voltage range DC	$\pm 35V$ DC to $\pm 45V$ DC
2	Recommended Operating Voltage DC	$\pm 42V$ DC
3	Input Impedance	56K Ohms
4	Output Power RMS per channel ( $R_L=4$ Ohms)	130 W
5	Output Power RMS per channel ( $R_L=8$ Ohms)	90 W
6	Maximum Temperature Withstand	125°C
7	Total Harmonic Distortion (THD) at 10W	0.04% ( $f=1KHz, R_L=8$ Ohms)
8	Recommended Output Load	$R_L \geq 4$ Ohms $R_L < 4$ Ohms is NA
9	Frequency Response	15Hz to 30KHz
10	Classification	Class AB

**Note:** This product is only for Professional technicians and it is a non-serviceable product.
